

7 October 2020

Dear Parents and Carers

We would like to say thank you to all our students and staff for working with us as we have introduced a more regular and consistent approach to wearing face coverings. Thank you for your support, as parents and carers, in ensuring that your son/daughter has a suitable face covering. We have taken this precaution in response to the increase in cases that we are seeing both locally and nationally. The positive response of our community working together for the benefit of each other has been heart-warming to see.

We have been informed of a positive test result of an individual at Kimberley College. This result comes from an individual who was not been present at the College last week or this week.

The Trust continues to follow Public Health England guidance. In reviewing this guidance with the Local Authority, we have confirmed that we do not need to take further actions including advising any individuals to isolate which means we can continue with our current model of on-site teaching to all our students.

We would like to express our thanks to the individual and their family for acting within published guidelines by self-isolating swiftly from the outset and communicating regularly with the college. We wish them a speedy recovery. Both actions are key as we work together to minimise the risk of transmission within our community.

Welcoming our students on site is a daily pleasure as they so willingly continue to engage with our established health and safety routines.

Yours sincerely

Mr T Detheridge

Head of College
